We build the future

As President & CEO of Al-Amari Holding, I firmly believe in the possibility of unlimited growth at Al-Amari Holding regardless of the challenges in Markets . The attainment of a place in the heart and mind of our clientele as providers for innovative solutions, for integrated communities, that suit every need and fulfill all dreams motivates us to prosper.

Al-Amari Holding is a business truly capable of benefiting and profiting both society and our shareholders.

I would like to take this opportunity to pledge that Al-Amari Holding team and I will endeavor to devote our full efforts to surpass our clients' expectations & fully satisfy their needs and requirements.

Best regards.

Eng. Muteb Alamri

ABOUT US

Perfect Vision Founded in 2009, PV is distinguished for its credibility, quality and excellence.

We have experience in construction, luxury decoration, electrical works, within kingdom.

We're pride ourselves on professionalism, the highest quality and deliverable, products available, with end-to-end solutions to meet our costumers' expectations and more.

Save Your Time With Us.

OUR FOCUS

Perfect Vision focuses on providing the best and most suitable solutions, from beginning to end. From initial design, component sourcing and supply, to installation, testing, commissioning and maintenance services, we are committed to ensuring our clients' total satisfaction.

OUR CREDIBILITY

Our products and services have been tested, analyzed, and certified by leading authorities. They meet the rigorous requirements of the international standardization boards, as well as public organizations, corporations, hospitals. Etc.

CORE VALUES

Our core values guide us in our mission to provide the most suitable end-to-end solutions.

We take pride in our leadership and commitment to quality, innovation and customer service.

INNOVATE

We are driven to innovate and adapt as new technology emerges. We combine our expertise and experience with many complex operations to create end-to-end solutions that meet the needs of any client.

RESPONSIBILITY

We believe that it is our responsibility to support other organizations and efforts in order to provide the best services to our clients. It is also our responsibility to create trustworthy interactions with our community.

CUSTOMER DRIVEN

At PV, you, our customer, are our sole focus. We strive to provide more than exemplary customer service. We endeavor to provide an outstanding customer experience, from first contact and ongoing services to establishing long term relationships.

LEADING THE WAY

We are proud of our leadership in construction, design & decor, electrical work and information technology services. Our leadership is derived from our ability to adapt, grow and evolve to meet emerging needs and deal with threats. We strive to maintain our position through commitment to outstanding quality, respect for others, and to refining our performance constantly.

OUR VISION

Our vision is to lead the market of our industry through innovation, dedication to quality, strategic planning and agility to adapt as new technology emerges.

We strive not only to lead in name but in principle, integrating in-depth experience and expertise with cutting-edge technology that will help to set the kingdom in an ideal business spot for all.

OUR MISSION

Our mission is to advance the industry by providing effective and pioneering end-to-end solutions to our clients as well as combating any threats.

We are dedicated to developing novel strategies and integrating the latest technology to contribute to the accomplishment of Vision 2030. We aspire to exceed our clientele's expectations and compete with companies internationally.

"My primary goal is to be an exemplary and leading nation in all aspects, and I will work with you in achieving this endeavour."

Custodian of the Two Holy Mosques
King Salman Bin Abdulaziz Al-Saud

This is our “Saudi Arabia’s Vision for 2030.” We will begin immediately delivering the overarching plans and programs we have set out. Together, with the help of Allah, we can strengthen the Kingdom of Saudi Arabia’s position as a great nation in which we should all feel an immense pride.

His Royal Highness Prince Mohammed bin Salman bin Abdulaziz
Crown Prince, Deputy Prime Minister,
and Chairman of the Council of Economic and Development Affairs

QUALITY CONTROL

Quality control is the part of quality management that ensures products and service comply with requirements. It is a work method that facilitates the measurement of the quality characteristics of a unit, compares them with the established standards, and analyses the differences between the results obtained and the desired results in order to make decisions which will correct any differences.

Technical specifications define the type of controls that must be carried out to ensure the construction works are carried out correctly.

They include not only products and materials, but also the execution & completion of the works.

Statistical control can be applied to the final product (acceptance control) or during the production process (process control). Statistical controls at reception establish sampling plans with clearly-defined acceptance or rejection criteria, and complete batches are tested by means of random sampling. The sampling control can be based on inspection by attributes in line with the ISO 2859 standard (Sampling procedures for inspection by attributes), or on inspection by variables in line with the ISO 3951 standard (Sampling procedures for inspection by variables).

A construction company should reduce the costs of bad quality as much as possible, and ensure that the result of its processes comply with the client's requirements. Both internal and external controls can be carried out.

SAFETY

Construction sites are a very dangerous place. There are many safety hazards around every corner. For this reason, it is important that the employees of these sites know and follow the safety rules you specify. To keep the work environment a safe place, so we highlight the most important points to consider.

- 1-Entry and exit of equipment.
- 2-Wear personal protective equipment
- 3-Keep loading or unloading equipment safe no matter where you work
- 4-The dangers of climbing the ladder
- 5-Pay attention to crowded work areas

Therefore, we apply strict safety rules that all workers on the site abide by (safety first)
